COVID-19 Update
February 26, 2021
COVID-19 Testing Hour Change

WVUMedicine

UNIONTOWN HOSPITAL

February 26, 2021

As our COVID testing and inpatient volumes continue to decline and are at their lowest daily rolling averages since early last fall, drive up COVID-19 testing hours will be reduced.

Beginning Monday, March 1, we will reduce the drive up COVID-19 testing hours to 10 a.m. to 2 p.m., Monday through Friday.

Testing will continue to be conducted outside of the Emergency Department Entrance and patients will still need a prescription from their physician in order to be tested.

For media inquiries or more information, please contact WVU Medicine Uniontown Hospital Director of Community Relations Joshua Krysak at 724-430-8634 or krysak@utwn.org.
